/note="Vector. pi7130-Pac (Pharmacia) with a modified polylinker; 1st strand cDNA was prepared from mammary gland tissee from a lactar ng formate, and was then primed with a Not I - OllacdT) primer. Double-stranded cDNA was liquid to Bro RI adactors (Pharmacia), digeored with Not I and cloned into the Not I and Bro RI sites of the Modified pT713 vector. Library is normalized. Library was constructed by Bento Soarcs and M. Patima Honardo. "
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Marra,M., Hillier,L., Allen,M., Howles,M., Dietrich,N., Pubuque,L.,

Viote—Vector, 17773D Far (Pharmacia) with a modified polylinker; 1st strand cDNA was prepared from manmary dand tissue from a lactating female, and was then primed with a Not i - Oliyo(dT) primer; Double-stranded cDNA was ligated to Eco RI adaptors (Pharmacia), digested with Not and cloned into the Not i and Eco RI sites of the modified pT7T3 vector. Library is normalized. Library was constructed by Benio Soares and M. Fatima Bonaldo. "a
